# University of Ecology and Management

University of Ecology and Management in Warsaw with its 20 years' history is one of the most renowned private technical universities in Poland. Due to the highly certified didactic and scientific staff of 300 and thanks to extensive technological base – numerous laboratories and workshops, the University meets both the Polish and the European teaching standards and is highly regarded by the students.

The dynamic development of UEM, the highest level of teaching and interdisciplinary character of knowledge that the students receive is valued by many employers and experts, which resulted in that the University received state certificate confirming the high quality of education.

There are two faculties at the University: Faculty of Architecture and Faculty of Engineering and

Management. Students of UEM are eligible to obtain the following academic degrees: Bachelor of Science in Engineering, Master of Science in Engineering, Bachelor of Science in Architecture, Master of Science in Architecture, Bachelor of Science in Landscape Architecture, Bachelor of Arts. The University offers studies in 10 programmes of study: Architecture, Landscape Architecture, Interior Design, Design, Civil Engineering, Environmental Protection, Public Health, Management, Management and Production Engineering, Mechanics and Machine Construction.

The didactic and administrative centre of the University is located in the centre of Warsaw, and has its workshops and laboratories equipped with professional technologies and are fully adapted for the needs of students with disabilities.

The university possesses: **10 student research clubs**; **Publishing House** and **University Library** that allows access to Virtual Academic Library; **Student Government** that organizes student festivals and artistic activities. The University participates in international student exchange programme **Erasmus+**. The students also get support in their professional career from **Career Centre**. Department of International Cooperation works especially for students from abroad.

Today there are more than 3000 students studying at the UEM.
