Białystok University of Technology

Białystok University of Technology (BUT) is the largest university in the north-eastern region of Poland. We are a modern dynamically developing institution with 67 years of experience in educating scientists and technologists. BUT is the biggest technology centre of the region. Our graduates are in demand in the labour markets of Poland and abroad.

BUT consists of seven faculties (*Civil and Environmental Engineering, Electrical Engineering, Computer Science, Mechanical Engineering, the faculty of Architecture, the faculty of Management and Faculty of Forestry*) with more than 10,000 students and 680 academic teachers.

There is the Academic Sports Centre, Student Residence Halls, the Center for Modern Education, Academic Incubator of Entrepreneurship and INNO-

EKO-TECH Centre on the territory of the main campus.

The education process involves three cycles of degrees in full-time and part-time modes. BUT offers around 30 study courses.

- Candidates are invited to enroll for: first degree or undergraduate courses (6 or 7 semester BSc),
- second or master degree courses (3 or 4 semester MSc),
- third degree or doctoral courses (8 semester PhD: *architecture and urban planning, civil engineering, computer science, electronics, electrical engineering, environmental engineering, machine design and maintenance, mechanics*).

Furthermore, each of the BUT faculties prepares a wide choice of post-graduate courses.

BUT has been granted permission to confer post-

doctoral (DSc) degrees in six scientific disciplines, such as civil engineering, electrical engineering, machine design and maintenance, mechanics, environmental engineering and computer science.

International Cooperation. BUT has been cooperating bilaterally with over 100 academic institutions from 30 countries in Europe, America and Asia. The contacts result in numerous fellowships, habilitation theses and doctoral dissertations, student visits, etc. Białystok University of Technology is also a signatory of the Erasmus+ program which, up to now, has effected in more than 160 agreements with European academic centers.

The University unit responsible for organizing international cooperation is the International Relations Office, directly subordinated to the Vice-Rector for Education and Cooperation.

Programmes of study in English

- BSc in Applied Mathematics
- BSc in Civil Engineering
- BSc in Computer Science
- BSc in Eco-engineering (Environmental Protection)
- BSc in Environmental Engineering
- BSc in Landscape Architecture

Fields of study in Polish

- *architektura* Architecture
- *architektura krajobrazu* Landscape Architecture
- *architektura wnętrz* Interior Design
- *automatyka i robotyka* Automatic Control and Robotics
- *biotechnologia* Biotechnology
- *budownictwo* Civil Engineering
- *edukacja techniczno-informatyczna* Technical and Informatical Education
- *elektronika i telekomunikacja* Electronics and Telecommunication
- *elektrotechnika* Electrical Engineering
- *eko-inżynieria* Eco-engineering
- *ekoenergetyka* Power

- BSc in Mechatronics Systems and Materials
- MSc in Computer Science – *specialization: Data Science*
- MSc in Applied Mathematics
- MSc in Architecture and Urban Planning
- MSc in Landscape Architecture
- MSc in Environmental Engineering
- MSc in Civil Engineering – *specialization: General Construction Engineering*

- *gospodarka przestrzenna* Spatial Management
- *grafika* Graphics
- *elektroenergetyka* Electroenergetics
- *informatyka* Informatics
- *informatyka i ekonometria* Computer Science and Econometrics
- *inżynieria biomedyczna* Biomedical Engineering
- *inżynieria komputerowa* Computer Engineering
- *inżynieria rolno-spożywcza i leśna* Agricultural, Food and Forestry Engineering
- *inżynieria środowiska* Environmental Engineering
- *leśnictwo* Forestry
- *logistyka*

- MSc in Eco-engineering (Environmental Protection)
- MSc in Electronics and Telecommunications – *specializations: Electronic Equipment, Teleinformatics and Optoelectronics*
- MSc in Management – *specializations: Management of Innovation and Business Development*
- PhD in Electronics
- PhD in Electrotechnics

- *logistyka* Logistics
- *matematyka stosowana* Applied Mathematics
- *mechatronika* Mechatronics
- *mechanika i budowa maszyn* Mechanical Engineering
- *turystyka i rekreacja* Tourism and Recreation
- *ochrona środowiska* Environmental Protection
- *zarządzanie* Management
- *zarządzanie i inżynieria produkcji* Management and Production Engineering
- *zarządzanie i inżynieria usług* Management and Service Engineering

Facts & figures: BUT was established in 1949 ● 7 faculties ● over 10 thousand students ● 70 students' scientific circles
