Koszalin University of Technology

Guided by the motto "The student is the most important," Koszalin University of Technology focuses on development, future and possibly the best, the most modern and universal, education of its students.

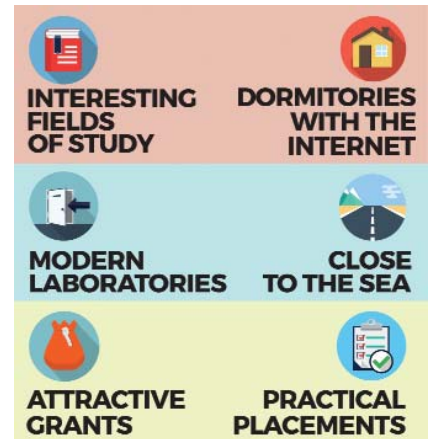

Koszalin University of Technology is the only public technical university in the Middle Pomerania and the only technical university in Zachodniopomorskie Voivodship, as well as one of the largest institutions of Koszalin.

It offers education to students on 25 fields of study: technical, economic, humanities and arts. Students earn the following degrees: bachelor, engineer, master's degree, master of science and PhD.

The University is located in three campuses: in Kwiatkowskiego, Raclawicka and Śniadeckich Street.

Four modernly equipped dormitories, forming university campus, are located in Rejtana Street. Since 2016 there is also Faculty of Timber Industry in Szczecinek, which was created in cooperation with Kronospan - one of the largest companies in timber sector in Poland and Europe.

Koszalin University of Technology provides very good studying conditions, richly equipped workshops and laboratories. The University offers friendly atmosphere and focuses on the individual development of a student. Koszalin University of Technology cares about quality of education and places special emphasis on practical training carried out in cooperation with entrepreneurs.
