Medical University of Białystok

Medical University of Białystok is a modern, dynamically developing university, whose mission is to provide the best education of professional, responsible, modern medical staff; conducting research at the highest international level; implementing innovative application solutions in cooperation with providers of medical services; and acting in response to social needs.

The proof of the University's high position is the fact that its Centre for Innovation Research received the Leading National Research Centre (KNOW) status in 2012 whereas the Faculty of Pharmacy and Laboratory Medicine received the prestigious A+ category - on the four-point scale of the Ministry of Science and Higher Education, in the group of life sciences, whereas the Faculty of Medicine with the Division of Dentistry and Division of Medical Education in English and the Faculty of Health

Sciences received A category. In this year's LEK session (Medical Final Exam) Medical University of Białystok was ranked first among all Polish Universities (with the average score of 136,64).

Currently, more than 4600 students study at 14 courses, including about 300 students studying in English. University graduates are prepared to work with patients, for their welfare and respect for universal ethical principles, but also as future researchers discovering the secrets of science that can be used in practice. Those young, talented and ambitious will find the perfect conditions for comprehensive development at our University.

The University has a state-of-the-art research and educational infrastructure, which includes, among others: a modern University Clinical Hospital, Euroregional Pharmacy Center, Academic and Research Center of the Faculty of Health Sciences,

Center for Experimental Medicine, Center for Clinical Research, Center for Bioinformatics and Data Analysis, Laboratory of Molecular Imaging.

The seat of the Medical University of Białystok is in the 18th century Branicki Palace, located in the city center. It is surrounded by the University's academic facilities, two clinical hospitals, dormitories and sports facilities.

The Medical University of Białystok is situated in a region of outstanding tourist attractions. The region of Podlasie is home to various nationalities, languages, religions, traditions and cuisines. It is also an area exceptional for its nature, as there are four national parks, three landscape parks and almost 90 nature reserves, which together form the area known as the Green Lungs of Poland.

You are always welcome to visit the region of Podlasie and join us at the Medical University of Białystok.
